Security
## series

Designed for the most stringent label inspection and finishing applications, Rotoflex Security Series is a flexible module which seamlessly integrates into current Rotoflex rewinding systems, enabling customers to configure their finishing solution to meet the ever-increasing requirements of pharmaceutical compliance and high security packaging.

Key Benefits

Re-inspection after fault correction ensures accurate final product

Detects missing labels, remaining matrix, splices, flags, spots, fading and missing colour, text defects and registration

Optional 1D and 2D barcode reading, barcode grading, OCR, braille

Integrates seamlessly with Rotoflex VSI, VLI and HSI models

Standard Features

User-friendly operator interface with exclusive URC 2.0 and eDrive 2.0 control systems

Compatible with multiple leading vision systems

Fault placement for accurate verification and correction

Supports both standard and pharma/security mode

ROTOFLEX

Advancements in Stringent Label Inspection

Labels for security sensitive industries must comply with extremely demanding accuracy laws and regulations. To satisfy these requirements, the Security Series offers a rich standard feature suite and range of advanced options to easily configure the selected machine for full security and pharmaceutical applications.

Vision System Integration

Vision system selection is critical to ensuring accurate final product. Whether the application calls for 100% accuracy, variable data or braille inspection, or bar code reading, the application design team at Rotoflex works closely with you to integrate the most advanced vision technology available to ensure a precise deliverable.

Slitting Rewinding Features

- Integrates with VSI, VLI or HSI models
- Automatic tension control (supports hard to very soft rolls)
- Taper tension control
- Saved set-up parameters for repeat jobs
- Automatic stop and roll end shut-off

Options

| |
| --- |
| Report Management System (RMS) for production and quality data collection |
| 1D and 2D barcode reading, barcode grading, OCR, braille |
| Remote diagnostics |
| Biometric (fingerprint) authentication |
| Integrated inkjet and bar coding |
| Label remover for trailer and leader |
| Unsupported film packages |
| Multiple unwind and rewind options |
| Back numbering |
| Cartridge slitting options |
| Core label printing systems |

Ask your Rotoflex representative about all available options and custom configurations.

With a mission to serve as your Total Solutions Partner, our global team is committed to delivering high quality, innovative solutions and support to help you drive profitability. Mark Andy responds to business needs by offering a broad range of equipment, education, support and supplies to printers and converters around the world.

Partnering with Mark Andy means access to leading global brands with **Mark Andy** narrow and mid-web printing presses, **Rotoflex** finishing solutions, and a complete line of **Mark Andy Print Products** consumables and pressroom supplies. All Mark Andy products are supported by the largest customer service team in the industry, committed to delivering spare parts, technical service, PM programs, retrofits and rebuilds, as well as dedicated hands-on training through **Mark Andy University.**
