

DIGITAL PLUS

“The white is unbelievable. We’re extremely excited by the possibilities this is going to offer designers, to be able to produce a white of this caliber and do it without screen printing. Not to mention it’s 40% faster than conventional methods.”

– Color Label

A Digital Inkjet Replacement
for Rotary Screen

ROTARY SCREEN DONE DIGITALLY

- Screen-like print with fewer costs
- Seamlessly integrate single color digital UV inkjet printing
- Minimize print product investment with reduced waste

RETROFIT TO ANY FLEXO MACHINE FOR MODULAR HYBRID INTEGRATION

- Digital Plus Screen can create or follow the master mark
- Rail mount ensures flexographic compatibility
- Enhance your current technology with additional capabilities

IMPROVING PRODUCTIVITY ONE CHANGEOVER AT A TIME

- Extremely productive as an operator-friendly digital solution
- Fast set up and job changes increase productivity margins
- Maximize pressroom budget with maximum machine optimization

STANDOUT CAPABILITIES

- Achieve opacity in excess of 85%, 3x more opaque than flexo white
- Single pass quality at a high quality at 240 fpm
- Ultimate digital flexibility

Streamlined workflow from art to print.

Your pressroom solution for opaque white as a replacement for rotary screen.

Technical Specifications

Printing Speed	240 fpm (73mpm)
Press & Print Width	13 inch (330mm) web width 17 inch (430mm) web width
